

## CFA Institute February 2010 Poll Regulatory Reforms

CFA Institute sent this poll as part of the Advocacy Update email delivered on 1 February 2010. The email was sent to all CFA Institute members and a select group of "friends" of CFA Institute, with 105,986 emails being delivered. 1,494 responses were received, for a response rate of 1.4%. For results based on samples of this size, the maximum margin of error is  $\pm 2.5$  percentage points; however, because the poll was included in an email sent to the entire population rather than a probability sample, no estimates of sampling error can be calculated.

Total Respondents: 1494
